MEMORANDUM FOR: Deputy Director for Intelligence

SUBJECT : Study of the Imagery-Related Role
and Resources of CGAS

25X1

1. Attached for your approval is the study prepared at your request by [redacted] of this Staff, on the CGAS role in imagery. Their findings are summarized on pages 1-3.

2. Based on this review, I am convinced that the imagery-related functions carried out by CGAS are both necessary and cost-effective. Options for providing these functions elsewhere at this time are few, not very attractive, and likely to yield no significant savings.

3. I do think that we will want to re-examine this question

25X1

4. I recommend that you approve the findings and recommendations of this study as presented.
